Our Goal is an Informed Patient

It is our belief that having complete information assists patients to make informed decisions, which translates into a more positive state of mind and emotional well-being.

We invite you read the free brochures we have available (request by email), browse the Internet sites listed below, and to contact us whenever you have any questions or need additional information. We will continue to update this list as new information becomes available, but please let us know if you discover a site we have omitted.

Recommended Internet Sites

-

BreastImplantSafety.org - "The most authoritative resource about breast implants on the Internet"

-

To view various animated procedures in 3-D click on the following membership link to
The American Society of Plastic Surgeons.
